df — PDF editing inside VS Code

This is an example document. Try the tools in the toolbar:

1. Highlight this sentence with the highlighter tool.
2. Underline or strike out these words.
3. Draw freehand over this paragraph.
4. Add a text box anywhere on the page.
5. Insert an image from your disk.
6. Add your signature (draw, type, or upload).
7. Use the eraser on your own marks, or undo.

Page operations (Command Palette):

df: Rotate Page | df: Delete Current Page | df: Move Page Up/Down | df: Insert Blank Page

External changes to this file reload the viewer automatically.

Page 2 — I am rotated 90 degrees

Select me, then run 'df: Rotate Page' to spin me back.

Page 3 — fillable form
